A hand-drawn sketch of a website interface. At the top left is a logo consisting of a stylized letter 'B' inside a circle. To its right, the word 'AZIAZ' is written in a large, cursive font. Below the logo is a horizontal navigation bar with five items: 'MUSIC', 'LYRICS', 'MERCH', 'ABOUT', and 'CONTACT'. The 'MERCH' item is underlined. To the left of the navigation bar, there is a vertical column of text: 'MERCH', 'OFFICIAL MERCH', 'EXCLUSIVE DESIGN', 'HIGH QUALITY', and 'LOW PRICE'. Below the navigation bar, there are several hand-drawn sketches of apparel items: two hoodies with different designs and prices ('\$10.00' and '\$25.00'), a baseball cap ('\$20.00'), a t-shirt ('\$15.00'), and three pairs of pants ('\$20.00', '\$25.00', and '\$30.00').

1/2 - GLIDS - study on bootstrap - **1 hr**

✓ → MARCH - change col 1 + add icons ✓

MUSIC - links to all albums ✓  
make 2020 artwork

ABOUT - create page ✓

CONTACT PAGE - hover icon ✓

DONATE - img hover ✓

LYRICS - add some stuff ✓

# MENTOR CAR #1

LOW  
→ COR

→ POLS

→ COR → see on paper

when ad size is specify  
sum of cols = 12

- \* 1. Discipline about tree being
- 2. If takes too long → move on to next flow
- 3. Fill in placeholder on About
- 4. Make list of all tracks needs to be done.
- 5. Reference images in 2020ME
- 6. Get res images for diff sizes  
→ not fixed dimension  
→ mm - mms: ems or % → look at it

middle! - good environment

# CONTACT PAGE

9/2

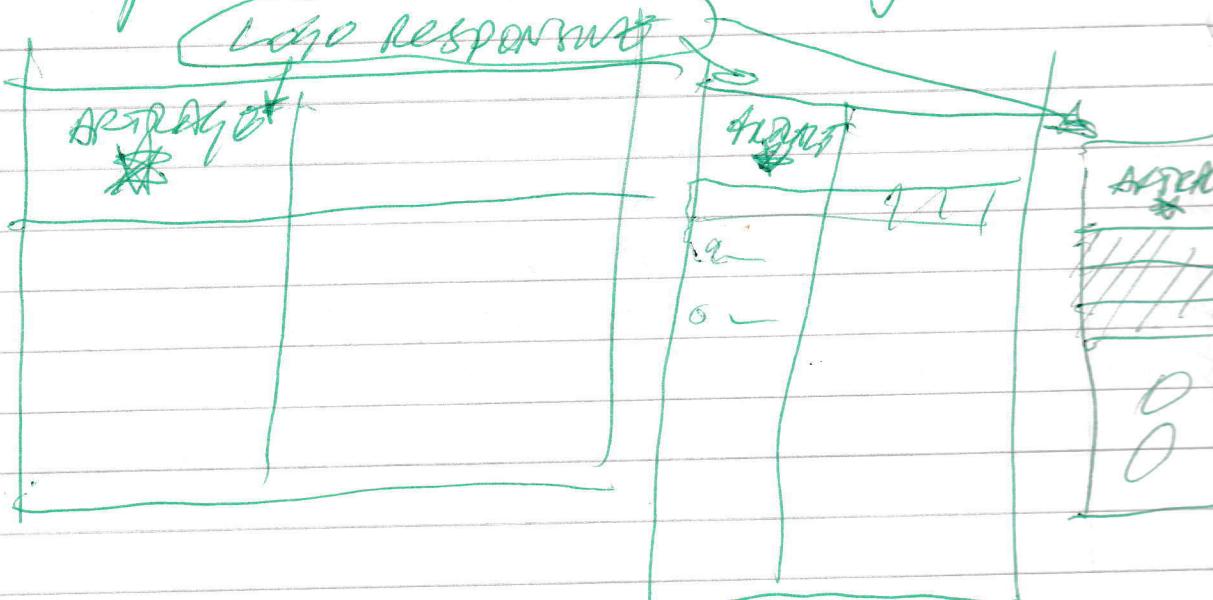

- ✓ error messages
- ✓ FORM - BOOTSTRAP
- ✓ Create CONTACT LINK IN FOOTER  
→ blue orange color on hover

○ SUBMIT - have ad  
go to kar email

✗ RENAME LYRICS WITH CONTACT ???  
No → leave as is

- Definitions for dif screen sizes
- Apply the logo across all pages
- logo in CSS → need to change?

## BOOTSTRAP

- ✓ Check refs esp col-sm-4 etc  
for responsive designs

↳ All refs correct

↳ fixed source in index.html

## Terminal

- ✓ Changes to multiple instances?  
done on Slack

↳ not advisable practice

→ changed img to optimize  
size for iPad

- Create pdfs for REASNE
- upload these to GitHub?

MG

MENTOR#2

- ✓ Dealing → how is that part  
of the project?  
NOT REQUIRED

- ✓ Code feedback for each page?

↳ See below

↳ + @ 3rd session

## FEEDBACK

LYRICS

NAME LEFT

- o Most things are in place

- ✓ left col - max width or ~~center align~~ → WORKS  
↳ col - lg or smth

- ✓ extra header - distracting? repeating  
x - off

x - no a column header

✓ text-align center

- ✓ double column - lyrics works.

(NO)

- ✓ remove player from lyrics

- ✓ reorder in "Without A Face"

↳ changed everywhere

- o static placeholder → img

- ✓ BROKEN STARS → recorded title

- ✓ RECORDS DATES IN ABOUT

BORING? : BORDER looks good,

SIDE\_PADDING

• SOCIAL LINKS

→ BORDER looks good

✓ CONTACT

↳ try two columns

- ~~size~~ size or off screens

- README - prioritize & fill up
  - a bunch of sections
  - get + get off the way
  - & action readers

- Get rid of hidden stuff
  - ie css and unused classes

- font-family repeated
  - in multiple classes
  - assign one common class

- polyfill
  - automatic tools
  - w3 validation ???

- images - delete unused

- indentation issues
  - Formatter ([freeformatter.com](http://freeformatter.com))

- commit to blank directory
  - do test indentation

- ui
  - separate file for each topic

## PRE-SUBMISSION

- Need to update all font?
  - How to stretch to bottom in desktop mode
  - ✓ Footer - align center
  - ✓ Smaller post image-post width & height
  - ✓ README - max update
  - ✓ Inverse links - hover → opacity

ACADEM	ACADEM Mus. Room.		ACADEM Mus. Room.
<del>all</del> <del>one</del> <del>one</del> <del>one</del> <del>one</del> <del>one</del>			<del>all</del> <del>one</del> <del>one</del> <del>one</del> <del>one</del> <del>one</del>

of this layout

- o Load → get pdf
- o Overall process
- o Manual design:
  - ② Readme = newer facets
  - o Placeholder text - update
  - o Name & summary = placeholder, not value
- o CSS → empty sections  
extra styling
- o CSS tables
- ✓ project becomes too big
  - create pdf
- ✓ PCV VALIDATION on all pages → W3
- ✓ CERTIFY in GIT PDF
